PREFACE

The eleventh volume of the City Directory, giving all the new numbering of streets since 1912, will be found a necessity in any business office. An increase in population is shown over 1912. The usual large percentage of changes has been made from the matter of last year's book, and every available means have been used to secure accuracy in the Directory. We have, as usual, made one thorough, and a secondary canvass of the whole city, and present herewith the result: As complete and carefully-compiled a Directory as we believe it possible to issue. The married women's names are inserted by the usual method we have adopted, and as there are now over five thousand of these which are included in no other directory, it will be seen that for dependability and completeness, the value of this volume is not to be compared with that of ordinary directories.

The map, which has been carefully corrected again this year, shows new streets and other changes up to date. The special information in regard to the location of the summer residences is a valuable feature of this Directory, and can be found in no other. Both key and map show the latest corrections in the district comprising Beverly, Manchester, Hamilton and Wenham.

Our thanks are tendered to all who have furnished information, and especially to our numerous subscribers and advertising patrons.

VISIT OUR RETAIL STORE

The above picture shows our Large Retail Store, located on the corner of Washington and Essex streets, one of Salem's leading business corners. Since its recent enlargement it is one of the largest and finest Jewelry Stores in the country. It is one of the show places of Salem—and, indeed, of New England.

This store is for YOU and we want you to come in as often as you wish to, and stay just as long as you like, regardless of whether you wish to make any purchases. We are constantly adding new and attractive goods, and no matter how often you come, you will always find something new and interesting to look at.

Our stock is unusually large and varied, and on account of our large Mail Order Business we are able to sell goods at exceptionally low prices.

Each year we get out a handsome illustrated Year Book of 250 pages. A copy will be sent to you free upon request.

CITY OF BEVERLY

STREET AND HOUSE DIRECTORY

Giving the location of the streets, places, parks, squares, etc., and showing what other streets and places run from them or across them, with the point at which they intersect. The system adopted for numbering the streets of the city is that a person starting at the beginning of any street, and following along with the numbers, every even number will be on the left and every odd number on the right hand, with the names of heads of families and persons in business in the order of location.

The cipher (0) is used to designate houses or buildings without numbers. The dash (—) is used to show where connecting streets and avenues cross or intersect, when such intersections or crossings have no numbers, and also to designate railroad crossings and bridges, parks, etc.

When there is more than one family in a house, the down-stairs name is given first.

Abbreviations: Ave., avenue; byd., beyond; groc., groceries; jct., junction; n., near; opp., opposite; r., rear; rep., repairing; s. r., summer resident; var., variety, etc., etc.

CITY OF BEVERLY

BUSINESS DIRECTORY

Beverly, clean, healthful and beautifully located on the North Shore, with seven miles of the most charming views to be found on this continent, recommends itself to all classes of manufacturers and business men on account of its first-class rail and water facilities and equitable freight rates to all shipping points. Its most significant growth proves it to be the coming city of this part of the Massachusetts coast. With a valuation of $40,000,000.00, it stands third in Essex County, exceeded only by Lynn and Lawrence. Within its limits are scores of millionaires' and multi-millionaires' palaces; but its life and vital energy are shown by the fact that the manufacturing industries, comprising shoes, machinery, automobiles, oiled clothing, foundries, enameline works, planing mills, wood and paper boxes, grain elevators, electric works, etc., are employing a thrifty and well-paid, intelligent people who are contributing to the busy growth of the city. The shoe industry, established more than a century ago, alone pays one million dollars per year in wages.

The United Shoe Machinery Company, occupying the largest reinforced concrete factory plant in the world and employing 5,000 mechanics, pays a wage of over one and one-half millions per year. The Gulf Refining Company has its New England terminal here and docks its fine steamships running from Port Arthur, Texas. Spur tracks of the Boston & Maine Railroad connect with all the wharves. Population of Beverly, 1913, estimated about 22,000. Eighteen miles from Boston on the Boston & Maine Railroad. Center of Electric Railway system, connecting with every important city and town in Eastern Massachusetts and New Hampshire. Superior harbor. Three banks, daily and weekly newspapers. Excellent fire department. Good sewers. Pure drinking water. Well-lighted streets. First-class public schools.

NOTE.—It has been found essential (as a general rule) to insert names of firms under the ONE heading only which best represents them, except in the case of patrons, when extra insertions are sometimes made.

Here are the special features of the Michigan "40."

Oversize tires—35 x 4½ inches—wider, we think, than on any rival car.
Electric lights with dynamo.
Center control.

Springs 2¼ inches wide—front 37 inches long; rear, 50 inches long.
Steering post adjustable. So are clutch and brake pedals, insuring perfect comfort and fit to every driver.
Shortsville wheels, with 1¾-inch spokes—12 to each wheel.
Demountable rims — Firestone quick-detachable, with extra rim.
Wheel base, 118 inches.
Straight-line body, designed by John A. Campbell. Finished with 22 coats.
14-inch cushions. All upholstering of the finest hand-buffed leather, filled with the best curled hair.
Rear seat 50 inches wide inside—22 inches deep. Doors 20 inches wide. Tonneau room 50 inches either way.
Nickel mountings.
Headlights—electric—12½ inches diameter, very powerful.
Sidelights set in dash—flush with it.
Windshield built as part of body, easily inclined.
Mohair top, side curtains and envelope complete.
Electric horn.
Speedometer—$50, four-inch instrument.
Foot rail—robe rail—rear tire irons—tool chests, with all tools, under running board.
